Width: 9.75 in. Live Area Height: 11.375 in. #2990 **Church Bank** Bend all scored lines down; now turn sheet over, design side down - now start at bottom (coin slot cover) and fold up, turning triangular flaps 1 and 2 N up as you go, so 1 is inside and 2 is outside - then fold flaps A & B around the sides to the back, turn locks A & B under and slip into matching slots A & B. Coin slot is protected from shake-out by a cover that pushes in as you insert money, then it comes back out, preventing coins from slipping out when bank is turned over or upside down. Fold this flap down and back, so it will be inside as COIN SLOT COVER the wedgeshaped coin bank is formed.

Die Line (represents actual cut product)
